Effective 01/01/07

- Above prices do not include surcharges. Surcharges may or may not be in effect. Please call for current prices.
- Temet 25 is only available in diameters of 1-1/4 and up.

Price includes:

- Shaft with single standard marine taper, standard keyway on engine end. Bronze or stainless steel hardware (two keys, one full nut, one jam nut and one cotter pin).
- When ordering shaft, please specify length.  
 OA - Length overall.  
 OC - Length from coupling face to end of shaft.  
 SET - Length from end of prop taper to coupling end of shaft.
- Our patented pinned Keyway design is available on request. This design keeps the key from moving fore or aft during propeller installation, helping to insure a proper fit - \$15.00.
